

Lab: Generative AI for Storytelling

Estimated time needed: 30 minutes

Learning objectives

After completing this lab, you will be able to:

- Sign up in Zoho Analytics and upload a dataset
- Generate a report by prompting Zia AI

Welcome to the lab on **Generative AI for Storytelling**!

Overview

In this lab, you will learn how to use Generative AI to prepare a report for your data using charts and insights.

To begin, you need to create your login on the [Zoho Analytics website](https://www.zoho.com/analytics/) page.

Task 1: Sign up in Zoho Analytics

Step 1: Click www.zoho.com/analytics/

Step 2: Fill in the required information and click the SIGN UP FOR FREE button.

Note: You can sign up for Zoho Analytics using various options such as Google, LinkedIn, or a Zoho email account. The platform offers a 15-day free trial without requiring any credit card details.

Step 3: On the Welcome screen, click **Get Started**.

The image shows the Zoho Analytics welcome screen for a user named Pratiksha. The header includes the Zoho Analytics logo, the user's name, and a premium trial status with 14 days left. The main content area features a 'Welcome Pratiksha!' message, a brief description of the service, and a 'Get started in 3 simple steps' section. The steps are: 1. Import/Connect Data, 2. Create Reports & Dashboards, and 3. Share & Embed Reports & Dashboards. A 'Get Started' button is highlighted with a red box. On the right, there are links to 'Watch getting started video' and 'How to create dashboard?', along with 'Request a Demo' and 'More.....' links. A sidebar on the left lists various data categories and sources.

Welcome Pratiksha!

Zoho Analytics is an online reporting and business intelligence service that helps you to easily analyze your business data and create insightful reports & dashboards for informed decision-making.

Get started in 3 simple steps

1. Import/Connect Data
2. Create Reports & Dashboards
3. Share & Embed Reports & Dashboards

Task 2: Upload a dataset

Step 1: To download the dataset, press the **Ctrl** key on your keyboard and then, click [here](#).

Step 2: On your Zoho Analytics homepage, select **Local Drive**.

The image shows the 'Import Your Data' page in Zoho Analytics. The header includes the Zoho Analytics logo, the user's name, and a premium trial status with 14 days left. The main content area features a 'Most Popular' section with a grid of data sources. The 'Local Drive' option is highlighted with a red box. Other options include Feeds/URLs, Google Drive, Zoho WorkDrive, OneDrive, SharePoint, Google BigQuery, Amazon RDS, Amazon Redshift, Microsoft Azure, MSSQL, Zoho CRM, Google Ads, Facebook Ads, and Zoho Finance. A sidebar on the left lists various data categories and sources.

Import Your Data

Import your data from a wide variety of sources to create insightful reports & dashboards.

Most Popular

- Local Drive
- Feeds/URLs
- Google Drive
- Zoho WorkDrive
- OneDrive
- SharePoint
- Google BigQuery
- Amazon RDS
- Amazon Redshift
- Microsoft Azure
- MSSQL
- Zoho CRM
- Google Ads
- Facebook Ads
- Zoho Finance

Step 3: Enter the **Workspace Name** and click **Choose file**.

Step 1 of 2: Import Your Data
Import data from Excel, CSV, HTML, XML, JSON, Statistical & MS Access files

Workspace Name* (?)
Workspace - 1

Description

File Type
CSV,TSV & Other Text Format

Data Location
☒ Local Drive ☐ Pasted Data ☐ FTP

File* [Try Sample](#)
Choose File No file Selected
(Supported file formats: .CSV, .TSV and other text files)

Note:

- For other file formats, Choose the corresponding 'File Type' option above.
- For large size CSV or TSV or Text file, we recommend to zip it and upload.
- Zipped CSV, TSV or Text file should contain only one file in it.

Cancel **Next**

General Info:
Data size should be less than **100 MB** and the number of rows should be less than **1 Million**
To Upload more, use our [Databridge](#), provided your data is in CSV or TSV text file formats
Contact support@zohoanalytics.com for any assistance

Step 4: Select and upload the electronics_dataset.csv file. Now, click **Next**.

Step 1 of 2: Import Your Data

Viewer

Step 2: Enter the following prompts one by one in the Zia AI prompt bar and generate all the charts through Zia.

Prompt 1:

Show a line chart of total revenue grouped by month using the Order Date column.

Sample output

You can click **Zia insights** icon on the top-right corner to see the detailed insights of the generated chart as shown below.

Prompt 2:

Create a bar chart of the top 10 products by total revenue.

Sample output

Prompt 3:

Create a pie chart showing each product's contribution to total revenue.

Sample output

Prompt 4:

Create a pivot table with product name, total quantity ordered, and total revenue.

Sample output

Step 3: After generating all charts go to **Dashboard** and select **Create new Dashboard**

Step 4: Drag and drop the dataset in the report section.

Step 5: Click **Save**, enter the dashboard name, and click **OK** to save the dashboard.

Task 4: Finalizing the charts to be used in the report

Step 1: Go back to Zia, save, and add the charts to the dashboard one by one that you created earlier.

Repeat the same step to add the other charts to the dashboard.

Step 2: Once the charts are added, go to the dashboard to find the charts that you have added.

Task 5: Saving and sharing the report

Step 1: Go to the View Mode.

Step 2: To export the dashboard, click **Export** and select the appropriate option to download the dashboard.

The screenshot shows the same dashboard, but with the 'Export' menu open. The table titled 'Total Quantity Ordered grouped by Product' is displayed. The 'Products' section is also visible at the bottom.

Product	Total Quantity Ordered
1 Chair	
2 Desk	
3 External Hard Drive	
4 Headphones	
5 Keyboard	
6 Laptop	
7 Monitor	
8 Mouse	
9 Printer	
10 Tablet	
Grand Total:	

Step 3: You can also share it with your colleagues and peers. To do so, click **Share** and then select the option as per your convenience.

	Product	Total Quantity Ordered
1	Chair	
2	Desk	
3	External Hard Drive	
4	Headphones	
5	Keyboard	
6	Laptop	
7	Monitor	
8	Mouse	
9	Printer	
10	Tablet	
	Grand Total:	

Conclusion

In this lab, you have signed up in Zoho Analytics, added a dataset, and generated a report.
